

Grade Level Meeting Minutes

September 26, 2011

1. Assessments

Math – After meeting with Mike Klavon in May, it was determined that the information in chapter 2 does not need to be assessed. The strategies can be taught and used during subsequent lessons and chapters. Barb Ferguson will be notified to make the changes on our report card.

2. “I Can” statements will be passed along to the resource room teachers so they can use the same language/terminology that we use with our students. We still need to make sure all of our reading “I Can” statements are in place according to the GLCEs, our report card and the new common core.

We checked NING to locate our work from last year and found it was still there. Val also emailed it to all of us. Thank you, Val!!!!

3. We spent the rest of our time filling in the Building/Grade Level Portion of the Accountability form. This is attached and if you scroll down to the bottom you will see what we added.
