Chapter 3 Test

Strategies for Addition Facts to 12

UNDERSTANDS THE ADDITION PROCESS
COUNTS, WRITES AND ORDERS NUMBERS

I can find sums by counting on 1, 2 or 3 using counters.

1. Count on. What is the sum?

$$8 + 2 = \underline{\quad}$$

2. Count on to solve.

Tom has 6 seashells. Then he gets 1 more. How many sea shells does Tom have in all?

$$6 + 1 = \underline{\quad} \text{ seashells}$$

I can add numbers in any order.

3. Write the addition sentence with the addends in a different order.

$$7 + 2 = \underline{\quad}$$
$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

4. Write the addition sentence with the addends in a different order.

| | | | |
|---|---|--|--|
| <div style="border: 1px solid black; width: 40px; height: 40px; display: flex; align-items: center; justify-content: center; margin: 0 auto;">6</div> | | <div style="border: 1px solid black; width: 40px; height: 40px; display: flex; align-items: center; justify-content: center; margin: 0 auto;"></div> | |
| + | <div style="border: 1px solid black; width: 40px; height: 40px; display: flex; align-items: center; justify-content: center; margin: 0 auto;">1</div> | + | <div style="border: 1px solid black; width: 40px; height: 40px; display: flex; align-items: center; justify-content: center; margin: 0 auto;"></div> |
| ----- | | ----- | |
| <div style="border: 1px solid black; width: 40px; height: 40px; display: flex; align-items: center; justify-content: center; margin: 0 auto;"></div> | | <div style="border: 1px solid black; width: 40px; height: 40px; display: flex; align-items: center; justify-content: center; margin: 0 auto;"></div> | |

I can count on 1, 2 or 3
by beginning with the greater number.

5. Circle the greater number.
Then count on to add.
What is the sum?

$3 + 8 = \underline{\quad}$

6. Circle the greater number.
Then count on to add.
What is the sum?

$6 + 2 = \underline{\quad}$

I can use a number line to count on 1, 2 or 3.

7. Use the number line to help you.
What is the sum?

$$5 + 3 = \underline{\quad}$$

8. Use the number line to help you.
What is the sum?

$$\begin{array}{r} 6 \\ +2 \\ \hline \square \end{array}$$

I can use doubles to add.

9. Add the doubles.
What is the sum?

$$\begin{array}{r} 4 \\ +4 \\ \hline \square \end{array}$$

10. Write the number sentence that tells how many cubes there are in all.

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

I can use double facts to learn doubles plus 1 facts.

11. Write the addition sentence that tells how many acorns there are in all.

$$\begin{array}{r}
 \square \\
 + \square \\
 \hline
 \square
 \end{array}$$

12. What is the sum?

$4 + 5 = \underline{\quad}$

I can find sums of 10.

13. Write the addition sentence that shows the sum.

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

14. Write the addition sentence that shows the sum.

$$\begin{array}{r}
 \square \\
 + \square \\
 \hline
 \square
 \end{array}$$

I can solve problems by drawing pictures.

15. Draw a picture.

Pam ate 6 apples.

Tom ate 3 apples.

How many apples did they eat all together?

$$\underline{\quad\quad} + \underline{\quad\quad} = \underline{\quad\quad} \text{ apples}$$

16. Draw a picture.

Beth had 2 flowers in her garden.

She planted 7 more flowers.

How many flowers did she have then?

$$\underline{\quad\quad} + \underline{\quad\quad} = \underline{\quad\quad} \text{ flowers}$$
