

MEAP Item Percent Correct Analysis - School

Hamilton Community Schools
Sandyview Elem School
Fall 2010 - 5th Grade - Mathematics

Note: You may see some students below the "cut score" line that were proficient on the assessment and/or students with the same percentage correct with different performance levels. This happens when multiple test forms are administered in a district/building. The "cut score" line is determined to be the cut for the majority of the test forms.
