

## Suggested Resource Room Math Assessments for LD Students

### Organized by Grade Level

#### Kindergarten-1<sup>st</sup> Grade

Addition-recognize addition sign

-add sums to 18 without regrouping

Subtraction-recognize subtraction sign

-subtract from 18 without regrouping

Number Sense-recognize/produce numbers to 100

-count by 2s, 5s, and 10s

-count with 1-1 correspondence

Time-recognize a clock

-tell time to the hour

-knows basic calendar skills

Money-identify names and values of coins

-count like coins

Problem Solving-one step problems related to above concepts

#### 2<sup>nd</sup>-3<sup>rd</sup> Grade

Addition-adding with regrouping up to 3 digits

Subtraction-subtract with regrouping up to 3 digits

Multiplication-facts up to 12

Division-recognize concept only

Number Sense-place value to 1000s place

-reading numbers to the 1000s

Time-calendar skills (months of the year)

-conversions/equivalents

-telling time to 5 minute and 1 minute intervals

Money-counting mixed coins to \$1.00

-making change up to \$1.00

Fractions-recognize, name, and draw

Problem Solving-two step word problems related to above concepts

#### 4<sup>th</sup>-5<sup>th</sup> Grade

Addition-review adding with regrouping using decimals

Subtraction-review subtracting with regrouping using decimals

Multiplication-3 digit by 2 digit individually and using decimals

Division-division facts

-3 digits divided by 1 digit divisor with and without remainders

Number Sense-place value to millions/thousandths \*\*

-reading numbers to millions/thousandths\*\*

Time-elapsed time (adding and subtracting hours/minutes)

Money-problem solving

-counting mixed coins in amounts greater than \$1.00

Fractions-add and subtract like fractions\*\*

-make/recognize equivalent fractions\*\*

Problem Solving-multi-step word problems

\*\*Items with double asterisk taught as time and ability levels allow

Name \_\_\_\_\_  
Date \_\_\_\_\_

Reading Random Numbers  
1-50

Time \_\_\_\_\_  
Number Correct \_\_\_\_\_

1	20	40	37	5	17	46	13
38	24	49	14	21	25	36	50
16	13	45	10	35	15	39	23
34	22	38	39	16	21	17	4
26	6	18	33	47	18	28	37
22	27	19	40	2	48	19	32
11	44	41	36	23	29	31	14
42	30	47	30	41	9	24	43

27	20	50	33	12	45	32	7

Telling Time Assessment

Name: \_\_\_\_\_

Date: \_\_\_\_\_

When shown a clock, the student can /cannot tell time to the...

Hour            Half-hour            Fifteen-minute interval

Five-minute interval            Minute

When given a clock and asked to do so, the student can /cannot show this time...

Hour            Half-hour            Fifteen-minute interval

Five-minute interval            Minute

The student can add hour(s). \_\_\_\_\_

The student can subtract hour(s). \_\_\_\_\_

The student knows the length of a ....

Week            Day            Hour            Minute

The student knows the days of the week. \_\_\_\_\_

Name: \_\_\_\_\_

Date: \_\_\_\_\_

### Practical Money Assessment

1. Name coins and values.

Penny	Nickel	Dime	Quarter
Value	Value	Value	Value

Bonus: Half dollar/fifty cent piece	Dollar
Value	Value

2. Count nickels (by 5s)

3. Count dimes (by 10s)

4. Count quarters (by 25s)

5. Count mixed change

Penny/nickel Penny/dime Penny/quarter

Nickel/dime Nickel/quarter

Dime/quarter Penny/nickel/dime

Penny/nickel/quarter Penny/dime/quarter

Nickel/dime/quarter all mixed

## Problem Solving Assessment (2 step)

Anna's team scored 5 runs in the first inning of the kickball game. They scored 6 more runs in the second inning and 3 runs in the last inning. How many runs did Anna's team score in all?

---

18 children were going to run a race in the park. 6 children left to get a drink of water. 5 left to play on the swings. How many children stayed for the race?

---

6 children were jumping rope. 5 children joined them. 2 children left because the line was too long. How many children were jumping rope then?

---

Jane had a party. 4 of her friends came and each brought 2 pieces of candy for her. Jane ate 3 pieces of candy during the party. How many pieces of candy did Jane have at the end of her party?

---

Jason bought a had one dollar. He bought a pack of gum for \$.59. His friend gave him \$.29. How much money does he have?

---

Place Value Assessment II

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Please read the following numbers out loud to your teacher. (Note: Circled numbers indicate mastery. Underlined numbers were read incorrectly.)

1. 218, 345      2. 3, 564, 321      3. 7, 453      4. 21, 784      5. 803, 340

On the following lines, please write the numbers as your teacher reads them aloud.

6. \_\_\_\_\_      7. \_\_\_\_\_      8. \_\_\_\_\_      9. \_\_\_\_\_      10. \_\_\_\_\_

Please follow the change directions as listed in the table below and record your ending number in the last column.

Starting Number	Change Direction	Ending Number
342, 032	Subtract 4 tens	
67, 974	Add 3 hundreds.	
722	Add 5 ones.	

8, 241, 283	Subtract 3 hundreds.	
354	Add 50.	
2, 319	Add 6 hundreds.	
533, 118	Subtract 9 ones.	
245, 908	Add 1 hundred.	
5, 480, 347	Add 6 ones.	
4, 053	Subtract 200.	

Name: \_\_\_\_\_

Date: \_\_\_\_\_

### Elapsed Time Test

1. Complete the following table.

\_\_\_\_\_ seconds = 1 minute

\_\_\_\_\_ minutes = 1 hour

\_\_\_\_\_ hours = 1 day

\_\_\_\_\_ days = 1 week

\_\_\_\_\_ weeks = 1 year

\_\_\_\_\_ months = 1 year

\_\_\_\_\_ days = 1 year

Use the following chart to answer the questions below.

**Train Schedule for June 22, 2004**

Village Name	Arrival Time	Departure Time
Archtown	8:06 a.m.	9:08 a.m.
Bayville	9:18 a.m.	10:12 a.m.
Crossington	1:32 p.m.	2:13 p.m.
Dashing Way	3:36 p.m.	4:40 p.m.

2. If you were riding the train from Archtown to Bayville, how long would you be on board?

- a. 10 minutes
- b. 1 hour, 10 minutes
- c. 20 minutes
- d. none of the above

3. The train sits at the station in Bayville \_\_\_\_\_ the amount of time the train sits at the station in Dashing Way.

- a. less than
- b. more than
- c. equal to

4. How long does it take to get from Crossington to Dashing Way?

5. Mike gets up at the time shown on the following clock. Write the time on the digital clock shown and fill in the chart to match the time shown.

\_\_\_ minutes past \_\_\_

\_\_\_ minutes to \_\_\_

:
---

6. Mike's sister, Sarah, gets up ten minutes later. Draw the time to show when Sarah gets up.

:
---

Count the money to find the cost of the items.

Fraction Assessment

Part II

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Draw a picture to show the following fractions.

1.  $\frac{3}{4}$

2.  $\frac{5}{8}$

3.  $\frac{1}{2}$

Reduce the following fractions.

4.  $\frac{12}{16} =$

5.  $\frac{4}{8} =$

Add the following unlike fractions.

6.  $\frac{2}{8} + \frac{1}{4} =$

7.  $\frac{5}{16} + \frac{1}{8} =$

8.  $\frac{1}{4} + \frac{5}{8} =$

Subtract the following unlike fractions.

9.  $\frac{14}{16} - \frac{5}{8} =$

10.  $\frac{7}{8} - \frac{1}{4} =$

Fraction Assessment

Part I

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Draw a picture to show the following fractions.

1.  $\frac{3}{4}$

2.  $\frac{5}{8}$

3.  $\frac{1}{2}$

Add the following like fractions.

6.  $\frac{2}{4} + \frac{1}{4} = \underline{\hspace{2cm}}$

7.  $\frac{5}{16} + \frac{2}{16} = \underline{\hspace{2cm}}$

8.  $\frac{1}{8} + \frac{5}{8} = \underline{\hspace{2cm}}$

Write an equivalent fraction for each of the following. Subtract the following like fractions.

4.  $\frac{12}{16} = \underline{\hspace{2cm}}$

5.  $\frac{4}{8} = \underline{\hspace{2cm}}$

9.  $\frac{14}{16} - \frac{10}{16} = \underline{\hspace{2cm}}$

10.  $\frac{7}{8} - \frac{2}{8} = \underline{\hspace{2cm}}$
