# Hamilton Community Schools DISTRICT IMPLEMENTATION TEAM

Once a month a cross section of Hamilton staff meet to discuss ways to improve the entire district, working specifically with learning and behavior. This team- the DIT- supports strategies that work, discontinues strategies that don't work and creates a local system that can implement and sustain tiered supports for students. If barriers are in the way, they work hard to remove them. If new programs are needed, they select one. When the DIT Makes decisions, they consider need, fit, resources, evidence base, district readiness and capacity.

### What the DIT wants to hear from you:

School Accomplishments

School Barriers

New Programs & Initiatives

## **Accomplishments**

**Staff Member** 

A staff member
wants to share
something that is
going well with
instruction, learning,
or behavior with the
SLT

**School Leadership Team** 

The SLT wants to share something that is going well with instruction, learning, or behavior with the DIT

**District Implementation Team** 

The DIT will
recognize and
celebrate school and
classroom
accomplishments.

# **Barriers**

**Staff Member** 

There is a barrier preventing staff from meeting the academic and behavioral needs of their students.

**School Leadership Team** 

Reviews requests
from staff,
resolves school
level barriers,
communicates
district level
barriers to DIT.

**District Implementation Team** 

Reviews requests
from buildings, asks
questions, works to
resolve barriers,
communicates
decisions back to the
SLT, follows up.

## Program Requests

Staff Member

A teacher or small group of teachers wants to try something new. They get approval from the administrator. They pilot it for a year.

#### Administrator

The Administrator and/or SLT considers piloted programs and building needs. They identify programs to be considered at a district level.

### **District Implementation Team**

The DIT analyzes the request to determine the program's effectiveness and utility for the district.
